

Flower Stand Panel

Flower Stand Panel

Flower Stand Panel opens up a variety of innovative play scenarios. Children can push petals to customers at the counter, build their fine motor skills by twisting flower spinners, or stop and smell the roses as they rest on either the front or back seat. By taking inspiration from real-world examples, kids can enact a myriad of imaginative scenarios to improve upon their creativity and critical thinking. Peek-a-boo openings offer further opportunities for social play, as well as add to the cohesive aesthetic of this floral play panel.

Material Specifications

The panels shall be constructed of Mira-Lene™. The panels shall be supported between posts by tops and bottom rungs (as required) of 1" pipe, each with two tabs of 11 ga. A-60 Galvannealed sheet, solid welded. In addition to above panel materials, panel shall feature Mira-Lene™ flower accents fastened to the panel. Seats shall be supported with tabs of 7 ga. A-60 Galvannealed sheet, bent.
